

Contents

1. Basic research on the effectiveness	1
Introductory remarks (Ende)	2
Scaling on Heat Transfer Surfaces – <i>Chemical versus nonchemical control</i> (MacAdam/Parsons)	4
2. Power-free permanent magnetic procedure	15
Inhibition of CaCO ₃ scaling by zinc (II) and copper (II) (Zeppenfeld) <i>A comparative review</i>	16
Literature (<i>a Synopsis</i>) (Zeppenfeld)	32
Magnetic treatment of process water (Wolfs)	38
Magnetic Water Treatment Device (Kobe/Drazic/Strazisar/Cefalas) <i>The Influence of impurity Elements and Magnetic Fields on the Crystallisation form of Calcium Carbonate</i>	60
Magnetic Water Treatment Technology (Brannagan)	66
3. Power tied to physical processes with inductive or capacitive couplin	75
Water Treatment by the use of Electronically Generated Induced Fields (de BaatDoelman) <i>for the Prevention and Elimination of Scale in Industrial Process Systems and Hard Water Applications</i>	76
4. External power-free, galvanic procedure with sacrificial anodes	83
Galvanic water treatment/Sacrificial anode technology in maintenance (Flettner)	84
5. Magnetic and electrolytic processes	91
Introductory remarks (Ende)	92
Cato Cool - Effective Protection against Corrosion, Fouling and Bacteria in Cooling Tower Applications (Guldager)	100

6. Energetical Water Treatment	107
Introductory remarks to the energetic water treatment (Ende)	108
7. Other procedures	
7.1 Introductory remarks	111
Introductory remarks (Müller-Steinhagen)	112
7.2 Membrane Processes	127
Innovative treatment of cooling water circuits using reverse osmosis technology (Kügler)	128
The still unknown treatment procedures (Kügler) <i>Degassing and rest the desalination of boiler feed water using membrane degassing and electrode ionization</i>	134
7.3 Physical, non-thermal hygienization processes	143
Thermodynamics and Catalysis in Cooling Water Circuits (Körner/Koppe/Lausch)	144
7.4 Other alternative procedures	149
Trend setting Nano-crystal Technology in the field of alternative lime protection procedures (Aehlig)	150
Chemical-free environmentally friendly Cutting Edge Technology (Reiche)	156
Appendix	167
Cards of market partners	168
Authors Index	170
